WORK EXPERIENCE

Lighthouse Labs | 2022

Apprentice Mentor | Vancouver

- Assisted students with applying the basics of web development such as Ajax, jQuery, and CSS.
- Provided code reviews to advocate better programming practices.
 - Improved readability and maintainability of the code.
 - Identified and removed redundant uses of memory.
 - Optimized the performance for faster rendering.
- Helped the students identify runtime errors by demonstrating debugging with Chrome Devtools.

Naver smartstore | 2020 - 2021

Owner/Website Manager

- Managed online store, ensuring back-end, and ordering process is running smoothly.
 - Maintained and built connections with suppliers to grow store inventory by 25%.
 - Responded to and resolved any technical issues that occurred on the website.
-
